## EXPERIENCE

### **Four Winds Interactive** Denver, CO — *Software Engineer*

July 2015 - PRESENT

Worked on a mobile web app builder with an admin and a customer product that brought in over \$4m for the company.

Planned and implemented a transition from legacy Backbone to React and Redux and guided the other 3 developers on the team.

Worked on the server and the client and helped with design decisions of the product as well.

JavaScript; node, React, Redux, Backbone, jQuery. MySQL. AWS

### **Outloud** Boulder, CO — *Founder, CEO*

December 2015

Founded the LLC and managed a group of 3 engineers from idea to two products; an iOS app currently available on the App Store, and a web player (outloud.io).

New Venture Challenge 8 champions with >\$3,000 in awards.

Go (server), Swift (iOS), React (web client)

### **Univ. of Colorado Boulder** — *Web Developer*

May 2012 - December 2015

Developed and maintained the department's website.

Developed a web application for university faculty to input confidential student information into a legacy FileMaker database. Thousands of users concurrently utilize the service everyday.

PHP, JavaScript, Bootstrap, FileMaker, Mac Server
